## why buy a juice?

Back in 1975, Tim Leatherman was a guy on the go, and a very picky engineer. As he traveled through Europe with a tight budget and a cranky car, he realized his trusty scout knife wasn't quite up to the challenge. Seven years later, the original Leatherman® tool was perfected.

Today, millions of people around the world are prepared for the unexpected because they carry one of Tim's tools. The new Juice® line, including the super-small Squirt™, fits your busy life with smooth lines, compact sizes and contoured shapes. Whether you're tackling small household repairs or traveling the world, freedom and convenience are what Juice is all about.

Why should you buy a Leatherman? Quality, durability, precision and attention to detail are the standards for all Leatherman products. See for yourself how far you can go with a little Juice.

At Leatherman Tool Group, Inc. we proudly back our products. See product User's Guide or visit [www.leatherman.com](http://www.leatherman.com) for warranty details.
